

testing::Test

```
classDiagram
    class testing__Test["testing::Test"]
    class PlanTimelinesTest
    PlanTimelinesTest --|> testing__Test
```

The diagram shows two class boxes. The top box, labeled 'testing::Test', has three horizontal compartments. The bottom box, labeled 'PlanTimelinesTest', has three horizontal compartments: the top one contains the class name, the middle one is empty, and the bottom one contains two method signatures, '# SetUp()' and '# TearDown()'. A blue arrow with an open triangular head points from the top of the 'PlanTimelinesTest' box to the bottom of the 'testing::Test' box, indicating that 'PlanTimelinesTest' inherits from 'testing::Test'.

PlanTimelinesTest

SetUp()

TearDown()
